

Student Ambassador

Marie Bouchet

Geneva, Switzerland

"I really like the people in Squamish. They are very nice to me, it's so different in Europe. Here they're always asking me if I want something or need help. I'm not feeling alone here."

Howe
Sound
2012

Marie Bouchet from Geneva Switzerland worked with her parents and agent on deciding what might be the best International program to attend. She knew that she wanted to be in a family oriented community but close enough to a big city so that she could visit once and awhile. The Sea to Sky international Student Program was the perfect fit.

Marie is attending Howe Sound Secondary in grade 11. Marie's goal was to improve her English and to use this time as a cultural experience. This semester she is taking Geography, Art, Drama and a Cooking class and very much enjoys these courses.

"What I like best about my school is the atmosphere. The relation between students and teachers is pleasant. What I like best about my classes are the people in it." When asked to tell us what she liked best about her experience so far she told us it was the people she had met.

"I really like the people in Squamish. They are very nice to me, it's so different in Europe. Here they're always asking me if I want something or need help. I'm not feeling alone here."

Marie is also very happy with her homestay family. She has not had any issues adapting to her new life in Canada.

"Everything's great at home. My bedroom is very comfortable, the food is so good, we have a room when we can do sport, etc. It's exactly the same environment at home in Switzerland." Marie will be applying for a school in Geneva when she completes her study abroad experience in Squamish. She knows this has been a great experience and a wonderful opportunity to be part of the Sea to Sky International Program.
