

Student Ambassador

Lin (Tobey) He

Guangzhou, China

"The classes are full of fun. I never feel bored in class. And every class has the best equipment provided."

Howe
Sound
2013

When Tobey He decided to go abroad to graduate she asked her agent to recommend a school district that could ensure an English environment. The agent suggested Squamish and Howe Sound Secondary School. "I love to live in this town because it is not noisy and busy. Everyone is friendly. And here has the best environment, full of fresh air. It's the best place to study and do outdoor sports."

Tobey has integrated well into school and her new community. "What I like the best about this school is there are so many societies to join. There are many international students events that let me know more about Canada."

Tobey is on a graduation path and plans to continue her studies in a Canadian university. "The teachers are very patient to help me understand English. They usually use easy English or actions, sometime they write down the words.

There are many field trips for each class. Students can enjoy studying and visiting together. And it's good for us to choose which university we plan to go in the future."

Tobey is very involved in sports and activities in both the school and the community. "I like every activity I am participating in such as basketball, ice skating, swimming, hockey and skiing. I like skiing the best. It's my first time skiing in my life."

Tobey is very happy with her homestay family and has become a part of the family; "I really love my host family, especially my host mom. She taught me dietary approaches. Because she knew there is a big difference between China and Canada about eating."

Tobey has two host sisters and a Japanese sister living with her and she really loves her life in Squamish. "We

usually play games and watch movies together. We have big dinners during every special holiday. They are all very nice people. I love them so much. And the dogs in the house are so cute."

Tobey plans to go to Simon Fraser University when she graduates Howe Sound Secondary. She will not be far but she knows but she will miss Squamish. "I will really miss this place, my friends and teachers. Especially my host family."
